## TECHNICAL DATA SHEET

| Sr. No. : UL3000039-V-04 | 4                                  | Issue   | Date: 23/03/2023 |
|--------------------------|------------------------------------|---|------------------|
| QUALITY CONTROL : We d   | declare that certificate of analys | sis of this material is inspected according to quality parameters as below :      |                  |
| Item Code                | UL3000039                          |   |                  |
| Item Name                | LEMON OIL                          |   |                  |
|                          |                                    |   |                  |
| Intertek                 | interte                            |   | tek              |
| Test P                   | arameters                          | Specifications  |                  |
| CAS#                     |                                    | 8008-56-8   |                  |
| EINECS #                 |                                    | 284-515-8   |                  |
| FEMA#                    |                                    | 2625  |                  |
| Botanical Name           |                                    | Citrus limon  |                  |
| Description              |                                    | Yellow to yellow green mobile liquid with characteristic citrus lemon odor.       |                  |
| Origin                   |                                    | The essential oil is obtained by cold expression from fresh fruits of Citrus lime | on               |
| Appearance               |                                    | Yellow to yellow green  |                  |
| Physical Status          |                                    | Liquid  |                  |
| Flash Point (Closed cup  | ı) °C                              | 43°C  |                  |
| Refractive Index         |                                    | 1.370 - 1.570 @20°C   |                  |
| Relative Density         |                                    | 0.840 - 0.860 @25°C   |                  |
| Optical Rotation         |                                    | +56° to +69°  |                  |
| Solubility in Alcohol    |                                    | Soluble   |                  |
| Solubility in Water      |                                    | Insoluble   |                  |
| Assay by GC              |                                    | D-Limonene: 65-75% Pinenes: 8-15%   |                  |

| PACKING & STORAGE   | Should be stored in cool, dry, well ventilated places in full, tightly sealed containers, protected from light & source of ignition. |  |  |  |
|---------------------|--|--|--|--|
| HANDLING PRECAUTION | Handle with adequate ventilation Avoiding skin & eye contact. Use goggles or faceshield safety gloves and wear protective clothing.  |  |  |  |

12 months with proper storage conditions.

Fragrance and Flavour application.

Avoid strong acids strong bases & all oxidizing agents.

Myrcene: 1-3%

Natural

Citral: max. 2.0%
